I found people that share my interests, a warm environment where everyone is free to express themselves, and truly hospitable professors that help us build a successful future. The atmosphere in the campus really makes me feel at home."

Study in The Netherlands

The Netherlands attracts thousands of international students every year. The country is well-known for its international atmosphere as it is home to over 200 nationalities. The Netherlands is also a unique non-Anglophone country, where approximately 95% of locals speak English. This fact makes everyone feel at ease while studying, living, travelling, and working here. The country is relatively small and centrally located in Europe which makes travelling so easy! Cities like Paris, Berlin, Brussels, or Luxembourg are just a train ride away.
